Think it over

MONDAY MORNING LEADERSHIP

**- Sri Sastry
(CICRD)**

"When it comes to leading people, there is no problem that is unique to you."

You could ask anyone with experience, and you would discover they have had to face the same issues, the same frustrations. So don't feel sorry for yourself. That's a waste of valuable time. Just make plans to make things better.

"A real leader spends his time fixing the problem instead of finding who to blame."

What happens when you place blame is that you focus on the past. When you accept responsibility, you focus on this time forward—on the future. Until you accept total responsibility—no matter what—you won't be able to put plans in place to accomplish your goals.
